# Stressless® – 40 years of innovating Comfort

Every Stressless® is part of a long and honourable story, which started forty years ago. The first recliner left our assembly line in 1971 and while we've been producing the world's finest recliners, we've also been thinking and rethinking the whole concept of comfort. Over the past 40 years, every new Stressless® has pushed boundaries and pioneered what is known as ultimate comfort.

Style and good looks are significant too, but essentially it's all about how wonderful your body feels when you are seated. That's why we, some twenty years ago, introduced Stressless® sofas. This way friends and family could share the comfort, and the Stressless® collection could grow even bigger and stronger.

In our quest to make the ultimate seat, we've invented new technology such as the Plus™ System and the Stressless® Glide System to our patented headrest and our newest innovative feature, Comfort Zones™. All these unique features are there for one reason; to make you feel as comfortable as possible.

Ultimately, the only way to fully appreciate the difference they make is to try one for yourself. Then you'll agree that comfort starts and ends with the word Stressless®.

# Comfort is... being perfectly relaxed wherever you're seated

Every piece of Stressless® furniture is created with specific core values: innovative solutions and smart accessories that never compromise with the comfort you experience when you sit or lie down. All we ask of you is to understand your needs, and then we'll guide you in the right direction – whether it is a Stressless® recliner, a fixed back Stressless® sofa with ErgoAdapt™, a new and functional Stressless® table, a home cinema setup or a practical double ottoman.

**The Stressless® Coffee Table** proves that a table can be so much more than just a table. The clever design makes it fit perfectly above the seat of your sofa, ensuring that your snack or beverage is never more than an arm's length away. Stressless® Coffee table can also be used as a side table, and if you put two of them together they form an ingenious sofa table.

*Stressless® Space Large SC11 and Double Ottoman with table are shown in Paloma Sky Blue/Wenge.*

The patented Stressless® Plus™ system automatically adjusts the headrest as you recline – supporting your neck while reading, watching TV and resting.

Anatomically correct lumbar support in all positions – synchronizes with the neck support function as part of the Stressless® Plus™ system.

The sleep function is activated with one simple movement to lay the headrest flat.

Comfort Zones™ gives you a better seating comfort, as the indentations let you sink deeper into the seat and back of the recliner.

For unbeatable comfort, you set the Stressless® wheel once and change your sitting position by using your body weight.

The Stressless® footstool is freestanding to fit all leg lengths and the top follows your movements, thanks to its built-in glide function.

## DISCOVER THE SECRETS OF PERSONAL COMFORT

- ① The perforated foam, moulded directly over the frame, gives you a better seating comfort as the indentations let you sink deeper into the seat and back of the recliner. Comfort Zones™ (pat. pend.) provide you with a proper contour for your body; they give good ventilation and guarantee that the cushions will be long-lasting and forever comfortable.
- ② A soft polyurethane foam pad ensures optimum softness.
- ③ The pad of soft polyurethane foam is covered by a layer of super-soft polyester fibre, for a real touch of luxury.
- ④ Flexo springs on a steel frame ensure durable construction and strength.
- ⑤ The Plus™ system automatically provides correct support for your head and lower back. The function is double-sided for maximum stability, functionality and lifetime use.
- ⑥ Only genuine top-grain leather covers the front and back of Stressless® chairs.
- ⑦ The Stressless® glide system automatically adjusts to your body weight, with no buttons or levers to pull.
- ⑧ The two-stem base offers far smoother turning and stability than the one-stem swivels fitted on most recliners.
- ⑨ The concealed swivel ring means that you can easily turn full circle. And the gracefully curved shape of the base is designed for great strength and durability.

*To find your perfect match, simply use a couple of minutes on our Comfort test™. This will show you all the advantages and features that only a Stressless® can offer.*

## PERSONALIZED COMFORT

We all come in different shapes and sizes, and when it comes to personal comfort – Ekornes gives you the freedom to choose. That's why most of the Stressless® designs are available in three sizes, some in two – so you can choose the design that complements your size.

## IT'S SIMPLY STRESSLESS® MAGIC

Let your body sink into the seat. Stretch. Close your eyes. Drift away. It's quite simply magic! The Stressless® story started back in 1971. Ever since, our ambition has been to produce the world's most superior recliner and sofa. With Stressless® Magic, our most comfortable recliner so far, we take comfort to an unrivalled level. The extremely soft cushioning embraces your whole body and lets you feel what comfort is all about. Magic!

*The Long Seat automatically tilts down, giving your legs perfect support when seated, while staying completely flat when you prefer to lie down.*

## STRESSLESS® SOFA WITH **ErgoAdapt™** – WHETHER YOU SIT OR LIE DOWN

Sit down and feel your body sink into the soft cushion of a Stressless® E200, E300 or Long Seat with subtle tilting mechanism. Experience how the sofa adjusts to your body, providing you with a perfect sitting angle. Now, do the same lying down. The feeling is the same; only now the seat stays completely flat. Ultimate comfort. That's the brilliance of the ErgoAdapt™ system. It is built into the seat base and provides you with the best comfort, whether you wish to sit or lie down.

NEW

**SIT EVEN BETTER!**

The ErgoAdapt™ system provides you with the ultimate comfort, whether you choose to sit or lie down, our new and flexible headrest makes the seating experience even better. The subtle movement of the headrest is easily adjusted by a handgrip, allowing you to find your optimal seating position – as shown in the picture above. The headrest can be used on existing E200 or E300 units, and is easily mounted without tools. The Long Seat has its own specially adapted headrest with the same innovative functions.

## WE TAKE OUR FABRICS SERIOUSLY

We take great pride in which textiles we choose as our Stressless® fabrics. Our specially selected fabric collection meets the most stringent requirements in the furniture trade. In fact, our international group of experts spent over a year selecting only those that met the highest of expectations. Flame-retardant, eco-friendly and super-strong, without losing their exclusive feel and, of course, they are available in the latest colour-trends and textures. We believe the final results are the best and most comfortable fabrics on the market.

Read more about fabrics and maintenance on page 61.

## COMPLEMENTING DESIGN

Stressless® offers a wide range of designs that complement each other perfectly. That way you don't need to worry about finding a matching chair or sofa – and you certainly don't need to compromise when you decorate your home. Just find the furniture that suits you and match it with a complementing design. As shown in the picture, the Stressless® Wave and the Stressless® Atlantic (M) are a perfect match.

## IT'S ALL IN THE DETAILS

What can often define the difference between a good seating experience and a great seating experience – are the neat and clever details. The Stressless® Easy Armrest Table is such a detail. The clever design fits perfectly on top of the armrest, making it a practical and steady table. See page 67.

## WHY SIZE MATTERS

Living rooms come in different shapes and sizes. That's exactly why we offer several sofa designs in two sizes. Take a closer look at the Stressless® Eldorado on this page, and Stressless® Granada on the next, and you'll see what we mean. They're basically the same sofa, but the difference in size allows more comfort-lovers to have one at home.

## Comfort *test*™

- Does the height and width of the recliner fit you perfectly?
- Is the footrest the right distance away to give maximum support for the length of your legs?
- Do the recliner and footstool follow your every move?
- Does the recliner's gliding movement easily adapt to suit your weight?
- Does it provide good lumbar support in all positions?
- Can you lie down, read or watch TV – and always feel that your neck is supported comfortably?
- Is it possible to adjust the headrest so that it is flat in the reclining position?
- Do you have the feeling that the back of the recliner reclines sufficiently?
- Does the recliner feel stable and safe?
- Do you notice how your whole body relaxes?

## BLOCKBUSTING COMFORT

The light is dimmed and you are ready to settle down and watch your favourite film. The screen lights up and you recline to your preferred seating position. Regardless of the movie's length, your body doesn't stop moving. In fact, your body moves more than 300 times during a film. In other words – this is the perfect place for a Stressless®. A Stressless® home cinema setup looks great. We are proud to represent far more than just good looks. What's unique are the Stressless® features that provide the exceptional comfort and clever storage solutions that bring tidiness to your living room. That's what we mean by blockbuster comfort!

## PERFECT NECK SUPPORT IN ANY POSITION

Whether you are sleeping, reading a book or watching TV, the height-adjustable neck support ensures that your neck is taken care of. The angle will change as you stretch out, even when fully reclined. One simple movement can activate the sleep function and flatten it almost completely.

## A REAL HAPPY ENDING

A good movie grabs you and holds you in your seat. That's exactly why we created the Stressless® Double ottoman, the sector table and armrest. Place your remotes, popcorn, drinks or snacks on, or in, the neat storage places that also function as tables. With Stressless®, good movies get even better.

## SIMPLY GREAT

Whether relaxing, working, reading, or watching television – a Stressless® is simply great. The patented Plus™ system lets the neck support move in parallel to the lumbar support. Together with the height-adjustable headrest, you're good to go for hours in front of the big screen. Choose between the ordinary armrest, enjoy the practical features of the Stressless® Easy armrest table or the Stressless® Corner table. Perhaps you desire the multifunctionality of the upholstered Sector table or Sector Arm that can replace the armrest in fixed arrangements. Watching a movie from a Stressless® home cinema setup is simply great.

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered like the sofa and hides a storage space under its top. The Sector / Sector Arm also functions as an armrest, which is why set ups with Sector / Sector Arm tables should be treated as a fixed unit.

The Ekornes® Corner table (CT) combines the need for a table with the need for individual positioning of the chairs and sofas. The corner table is free-standing, allowing you to reorganise the furniture when needed.

## EKORNES® OFFERS FOUR CATEGORIES OF LEATHER, IN A SELECTION OF BEAUTIFUL COLOURS.

**BATICK** is a corrected, pigment improved and grain-embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

**CLASSIC** is a corrected, pigment improved and grain embossed upholstery leather. Classic is somewhat thicker and has a larger pebbled grain than Batick. Most of its natural marks are removed. Also, some of the Classic colours have a two-tone colour effect to liven up the surface. A protective layer of lacquer simplifies cleaning. Classic is a wise choice if you want leather with excellent utilisation properties and a robust structure.

**PALOMA** is a slightly corrected leather with a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may, however, vary a little at some parts of the furniture and also minor colour nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy duty quality and protection as Batick and Classic. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

**ROYALIN** is the most exclusive of Ekornes's leather types, but also the most vulnerable. Royalin is a type of leather with natural pebbled grain and structure, and may have minor colour nuances and some natural marks. This is characteristic for a natural material such as Royalin. A very light surface treatment provides a certain protection, but Royalin absorbs moisture easily, and is extra vulnerable to wear and tear, heat, sunlight, spills and perspiration. This requires greater care in use and more vulnerability to influence from direct contact with human skin (especially from neck/hair and hands). Royalin has the softness and rich warm glow that characterise first-class furniture leather. Variances including grain pattern and colour are an inherent feature within Royalin leather and are a natural mark of high quality.

### Ekornes® upholstery leather

Ekornes is one of Europe's largest consumers of leather. We purchase the leather from selected tanneries all over the world. Our own inspectors take part in the leather selection, which is conducted in accordance with international norms for quality determination. The experience we have gained from this work is for your benefit when you buy Stressless® or Ekornes® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations relating to their utilisation properties, and for the use and content of chemicals and other substances. We are cooperating with recognised international institutions in this line of business to ensure that we are updated at all times with events relating to health, safety and the environment.

### The leather for our furniture is a natural material that comes from cattle hides

When the hide has gone through a tanning process and further processing to achieve the correct utilisation properties, it is called leather. One characteristic of hide is that it is marked by nature, vegetation and the care the animal has been subjected to. Cattle spend most of their lives outdoors and will therefore be marked by external influences like insect bites, tears, scars, wrinkles, stretch marks, etc.

### The following are some of the properties of leather that you should be aware of:

Leather is a natural product and is a beautiful and lively material used in furniture-making. Each hide is unique in its structure, appearance, nuance and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colours and natural marks, makes each piece of furniture unique. In time, the leather will age and gain patina. It is important that you are aware of one thing: although leather furniture can withstand a lot of wear and tear, its appearance will change with the years.

### The following applies to all types of leather used by Ekornes:

Hide absorbs dyes differently, and therefore the leather may have colour nuances. These are due to dissimilarities and different fibre structures, which affect the colouring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are deep dyed, but there could always be a deviation between the basic colour of the hide (the colour of the side that faces the upholstery side of the furniture), and the colour of the grain side (the external side): i.e. the colour of the outer layer. This is normal. It is possible to use the same basic colour for leathers with different top colours.

Dyes and dyeing methods may vary between the different leather colours and leather qualities. Therefore, the basic colour and the colour of the top layer (which forms the wear layer and the final desired colour of the finished product) of a given leather quality may differ.

Some of the leather dyes have a two-tone colour effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one colour. This applies in particular to areas of the furniture that are exposed to harder wear such as armrests, seat cushions and neck supports.

The top layer protects the leather and simplifies cleaning, but is nonetheless vulnerable to soiling and wear. If the top layer/top colour is destroyed, the leather may deteriorate faster. Penetrating spills/damage/scratches are normally irreparable and may result in the top colour changing character, cracking or peeling off.

Denim clothes and hard textiles, such as dungaree jeans, expose the leather to strong wear and may leave colour on the leather which is difficult to remove, without risking destruction of the top colour of the leather. Light leather colours in particular are vulnerable to such colour contamination.

All furniture leather sold by Ekornes is resistant to light, but changes in colour may occur as a result of use and extensive exposure to light. Consequently, furniture should not be exposed to direct sunlight or direct heat from heaters and other sources of heat. Leather is vulnerable to exposure to oils from direct contact with human skin (especially of the neck and hands).

*Remember: leather has a relatively long life-time, but can easily be destroyed by incorrect handling.*

### Stressless® Leather and Fabric Care kits

To match the high quality of our furniture, Ekornes now offers its own leather and fabric (including microfiber) care series.

The Stressless® Leather Care kit (medium, large) and the Stressless® Leather Care Wipes contain a leather cleaner, a protection cream and wipes. For nurturing, and making the leather more resistant to stains, the protection cream should be applied to all leather surfaces when your recliner is new. For later treatment, in addition to regularly removing stains, we recommend that the leather is cleaned with the

Stressless® Leather Cleaner at least every 6 months. Always apply protection cream after cleaning. Please see [www.ekornes.com](http://www.ekornes.com) for further information about maintaining your leather furniture.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and 'Ox cleaner'. This kit gives you everything you need to clean a piece of furniture in just minutes, without removing the fabric cover. For resistant stains, use the Fabric Cleaner together with the Stain Remover and 'Ox' Cleaner'.

These are the only cleaners Ekornes will approve. Ekornes will decline all responsibility in cases where other products than those approved by Ekornes have been used to maintain your leather and fabric furniture.

### Stressless® Fabric

Our specially selected fabric collection meets the most severe requirements in the furniture trade. Stressless® fabrics are produced according to strict conditions with respect to nature; they are also prepared for heavy-duty use, light tolerance and flammability. Choose from the Cocoon, Oasis, Ocean, Siena, and Spa ranges in a wide selection of colours that match your interior.

### About fabric

Please note that colour changes will occur with time, as a result of use and the effect of light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your chair or sofa, the fabric upholstery should be regularly vacuumed, professionally dry-cleaned or cleaned with our approved Stressless® Fabric Care kit.

### The wood colour

Our wood finishes are made from laminated European beech, a light-coloured wood with an attractive grain, eminently suitable for staining in various colours. The hardness of the wood makes beech furniture extremely durable.

### STRESSLESS® ELLIPSE TABLE

This flexible easy-to-move table is ideal, because when you're in your 'comfort zone' you can easily reach everything you need.

W:49 D:38 H:54-74 (height-adjustable)

### STRESSLESS® FLEXI TABLE

Exclusively designed in stainless steel, and glass. This table is height-adjustable and the glass plate can easily be tilted and transformed into a standing PC-table for Stressless® Blues and Stressless® Jazz. W:54 D:43 H:55-70 (height-adjustable)

### STRESSLESS® COFFEE TABLE

A flexible and cleverly designed table in stainless steel and glass, that fits perfectly above the seat of your sofa. Your snack, or beverage, is never more than an arm's length away. Stressless® Coffee table can also be used as a side table, and if you put two of them together they form an ingenious sofa table.

### STRESSLESS® DOUBLE OTTOMAN

The large ottoman offers ample space to put your feet up, and the storage space hides a tabletop which can be placed on the ottoman when needed. W:119/154 H:44 D:61

### STRESSLESS® OVAL OTTOMAN

The Stressless® oval ottoman has a removable pillow, so it doubles up as a convenient table. When you don't need it to rest your feet on, simply store it below the tabletop. W:94 H:41 D:49

### STRESSLESS® MODERN AND STRESSLESS® SOFT OTTOMAN

Our ottoman is ingenious in at least two ways. It has a built-in tilt system, which makes sure the angle of the ottoman adjusts to your sitting position. It has room for all the extras, under its removable top. The ottoman comes in two sizes.
