Ekornes® and the environment

Ekornes takes responsibility for the environmental impact caused by the manufacturing, distribution, use and destruction of the company’s products. Over a long period the company has implemented measures at its manufacturing plants to improve the internal and external environment, while also selecting more environment-friendly raw materials. The sustainable manufacture of products with a long useful lifespan will continue to be an objective in the future development of the company.

The following key principles shall be complied with in all parts of our business:

• Ekornes shall be perceived as an environment-friendly company. Our products shall have as little impact as possible on the environment.
• Ekornes aims to minimize the health risk experienced by employees in the workplace.
• Ekornes aims to avoid damage to the environment and health.
• Environmental information shall be freely available, e.g. through environmental product declarations (EPD).
• Ekornes shall accurately and openly publish information about how the company handles its environmental responsibility.
• Ekornes participates in the UN’s Global compact.

For more information regarding specific measures we have implemented or are planning, you can download a longer version of our environmental policy document from www.ekornes.com

Stressless® – the Comfort story

Every Stressless® has a story. And each of those stories begins and ends with the word “comfort”. Making the world’s finest recliners involves thinking and rethinking the word “comfort” for over 30 years. That does not mean that we compromise on look and style, as you will see. But what it all comes down to is how your body reacts when seated. That’s where a Stressless® refines comfort as you know it.

You see: Every detail in a Stressless® is there for a reason. Their sole purpose is to make you as comfortable as possible. In our quest to make the ultimate recliner, we have invented technologies that put a Stressless® two steps ahead. Like the Plus™ System, the Stressless® Glide system and the patented headrest. But enough talk: The only way to fully understand true relaxation, is to go out and try one. Today.

We thought, why shouldn’t a sofa be just as comfortable as a recliner? So we created low-back and high-back Stressless® sofas, where every seat back is individually adjustable.

Like people, Stressless® recliners come in different shapes, colors and sizes.

A corner set-up isn’t just for bachelor friends any more. Stressless® lets you choose from a number of combinations, to fill practically any living space.

We love versatile furniture. That’s why we produce innovative, purposeful furniture, like our double ottoman.

To accompany our recliners and sofas we developed a wide range of tables that fit perfectly into any furniture setup.

New Stressless® with ErgoAdapt™ system. We like the liberty of free will and ultimate comfort. That’s why we developed the ErgoAdapt™ system. Whether you sit or lie down, the result is always the same: Ultimate comfort! Read more about ErgoAdapt™ on page 12.

For every home, large or small, there’s a place for a Stressless® theater setup. Read more about Stressless® theater seating on pages 52 - 59.

Product Guide 62-67

Stressless® is endorsed by the American Chiropractic Association.
Discover the secrets of personal comfort

1. Space-age foam is molded directly over the frame, to cushion your body.
2. An additional pad of soft space-age foam ensures optimum comfort.
4. Durable steel frame and flexo springs for superior resilience and continuous support.
5. Plus™ system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
6. Genuinely top-grain leather or fabric covers the entire seat, for a luxurious look and feel.
7. Unique Stressless® Glide system automatically adjusts to your body weight.
8. Two-rollers base adds superior stability.
9. For maximum mobility, swivel action lets you easily turn 360˚.

The headrest adjusts automatically, so you can read and watch TV, even in a reclining position.

The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you’re always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Adjust the Stressless® Glide system to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

Styroflex® double action is shown in Paloma Chilli Red/Black.

Stressless® Vision (S), Stressless® Dream (M) and Stressless® Spirit (L) are shown in Classic Vanilla/Wenge. Our complete range of models is shown on pages 62-67.

Fits like a glove

It would be unfair to tailor the world’s most comfortable recliners and sofas to fit just one body type. Just as our individual tastes vary, so do our bodies. That’s why most Stressless® designs are available in up to three sizes, as one size does not fit all. Usually, the differences are subtle, but sit down and you’ll realize that a recliner customized to your body makes all the difference.

One way to find your perfect recliner is to take the Stressless® Comfort test™. It only takes a few minutes, and guides you through the world of advantages and patented features a Stressless® offers. It’s worth investing some time in a more comfortable way of life.
We thought: why shouldn’t a sofa be just as comfortable as a recliner? So, we started creating sofas with individual reclining seats. They were a huge success, and we continued our quest to make the world’s most comfortable seats, giving our sofas more and more innovative benefits. Like adding the choice of low-back or high-back and the adjustable headrest for perfect neck support.

Style and good looks are important. But like our Stressless® recliners, relaxing in a Stressless® sofa is all about comfort and how superb your body feels when you are seated. That’s why we started making Stressless® sofas in two different sizes, so that everyone could experience the Stressless® wonderful world of comfort.

Adapts to you, and him, and her

Stressless® sofas and recliners are just like families – they come in many shapes and sizes. A sectional sofa, where each seat has an individually adjustable back, soon becomes both a playground and a cozy retreat. It’s often the best spot for some of those unforgettable moments in life. You can be sure that a Stressless® sofa with individually adjustable backs can cater to your individual needs, while still being a gathering point for everyone. Join the comfort family today.
Different sizes, same great look

On many of our Stressless® sofas, we offer a choice of two sizes. The seat depth, adjustable backs and choice between high- or low-backs stay the same. It’s the width we’ve adjusted, so even more Stressless® seating can be tailored to your body type. Applies to most of our Stressless® sofas.

Lying down flat, no tilt
When you lie down on the sofa, the seat stays completely flat, offering maximum comfort and giving you the full advantage of the oversized seat.

From zero position to lift position
The new Stressless® ErgoAdapt™ system automatically tilts the seat as you sit down, providing the perfect degree of comfort and support.

Stressless® with ErgoAdapt™ system (Pat. pend.)

New options. More flexibility. Ultimate comfort!

This is the promise of the new technology of the ErgoAdapt™ system that makes sofas into a multifunctional comfort zone, which is built into the seat base of the fixed sofa and long seat of the new Stressless® models, Ezo and Ezo. The seat tilts down automatically the moment you sit down, providing the most comfortable sitting angle. If you prefer to lie down, the seat elevates to the completely flat position. No matter what your choice is, the outcome is the same: Ultimate comfort!

New options. More flexibility. Ultimate comfort!

Stressless® E200 Sofas in Batick Cream/Wooden legs. Our complete range of models is shown on pages 62-67.
Stressless® E200 2-seater with long seat in Batick Black/Steel legs. Our complete range of models is shown on pages 62-63.
The ErgoAdapt™ system is built into the seat base of the Long Seat, providing ultimate comfort in any position. The seat automatically tilts down, giving your knees perfect support when seated, while staying completely flat when you prefer to lie down.

The Long Seat can be part of the 2- or 3-seater in a Stressless® E200 and Stressless® E300 sofa concept, or it can be freestanding. It also has individual replaceable back cushions in either fabric or leather.
Mix, match, sit

Sofas serve different purposes. Some are for lounging and watching television, others are for welcoming guests around the table. Some are suited for long, lazy afternoons. Whatever your demands are, we have the right model to meet them. The choice between high- and low-backs is simply another example.
Stressless® Space Large Sofa shown in Paloma Black/Jazz legs. Stressless® Jazz Medium and Stressless® Jazz Large Recliners shown in Paloma Chili Red. Ekornes® Jazz Table. Our complete range of models is shown on pages 62-67.
The smooth style of Jazz

Stressless® Jazz is a harmonious fusion of function and comfort that we’ve spent 35 years refining. Its elegant lines, smooth surfaces and stainless steel curves fit comfortably in the most contemporary of living spaces. And, of course, with our trademark Stressless® comfort, Stressless® Jazz sets just the right mood.

The Stressless® Jazz and ottoman can be adjusted to match your height. Adding or removing any of the three rings on the base allows you to choose between low, medium or high settings.
Blues and Soul in perfect harmony

Stylish, soft and sophisticated – Stressless® Soul is one the newest additions to the Stressless® family, pairing up with last year’s introduction the Stressless® Blues recliner. We’ve combined a sleek stainless steel frame and classical Stressless® lines with the patented Stressless® features to create a new fusion of comfort and style. Inviting family and friends for some comfortable quality time, accompanied by ‘Blues’ and ‘Soul’, has never felt more correct.

Stressless® Soul Sofas and Stressless® Blues Large Recliner shown in Batick Cream.
Ekornes® Jazz Sofa Table and Stressless® Flexi Table.
Our complete range of models is shown on pages 62-67.
Glide into comfort

A Stressless® is a mechanical wonder. Why should we put less effort in making the perfect ottoman? You might not have noticed, but as you lie back in a recliner, your legs move slightly forward and your feet move down. A genuine Stressless® Ottoman recognizes this comfort detail. It automatically adjusts as you recline allowing for increased circulation, to maximize the comfort. The patented, built-in glide function makes the world’s most comfortable recliner even more comfortable. What’s more, you can lock the position and use it as an occasional seat.

*Never sit or stand on the ottoman when it is not in the locked position.

Stressless® Sunrise Medium Recliner shown in Paloma Chilli Red/Black. Our complete range of models is shown on pages 62-67.
Adapts to you, and your room

Stressless® is a tailored seating concept designed to fit any room. Stressless® gives you the flexibility to choose between a number of combinations, to fit virtually any living space. Add the accessories that suit you, from armrest tables to ottomans with built-in glide function. All setups have individually adjustable seat backs, and a choice between high- or low-backs.

The combinations are available with the following models: Stressless® Arion, Stressless® Eldorado, Stressless® Granada, Stressless® Paradise Medium and Large, Stressless® Wave, Stressless® Space Medium and Large.

See page 63 for all available sectionals and measurements.
Carefully selected fabrics

Not all fabrics can become a Stressless® textile. In fact, it took our international group of experts more than a year to narrow it down to those few qualities that meet the demands of our new fabric series. On top of being flame-retardant, environmentally-friendly, super-strong and still smooth, they also have to follow the latest trends in color and texture.

Why not combine fabrics and leather in a dynamic home environment? The colors and textures of our new fabric series blend perfectly with leather upholstery. For examples, see Stressless® Arion on this page or Stressless® Wave on page 40.
Heaven is a twist away

A Stressless® is engineered to be more stable, to recline further and to adjust smoother. It simply delivers what our customers have come to expect. That means it’s more responsive to the way your body moves. You never have to force it to do anything – move, and it moves with you. Your key to it all is the Stressless® Glide wheel. Adjust its tension to suit your personal needs. Thanks to our double-stem base, you can swivel 360 degrees and never feel a hint of instability.
Size matters

We keep coming back to sizes. That’s because we can not emphasize enough the importance of finding a sofa or recliner that’s practically built for you. With Stressless®, that’s possible. All of our Stressless® recliners are available in multiple sizes and several of our sofa models are as well. The Granada and Eldorado, for example, are essentially the same design in varying sizes. You decide which model is the right fit for you.
Stressless® Eldorado sectional shown in fabric Oasis Camel/Natural. Stressless® Double Ottoman. Our complete range of models is shown on pages 62-67.
Are the height and width of the chair right for you?

Is the ottoman positioned in the right place to give you maximum leg support?

Does the chair and ottoman move with you as you shift positions?

Does the gliding movement smoothly adjust to your body weight?

Does the chair provide good lumbar support in all positions?

Is your head supported comfortably as you lie down to read or watch TV?

Can you adjust the headrest so that it lies flat when you recline?

Do you have the feeling that the seat back reclines sufficiently?

Are you aware of how your entire body relaxes?

Is the recliner complemented by a matching reclining sofa?
Be creative, build your décor

Whatever your taste in décor, you’ll find the Stressless® seating that will complement your interior. The Stressless® collections offer a broad range of designs. Many sofas have recliners that are designed to match them perfectly – the Stressless® Pacific (L) and Stressless® Atlantic (M) Recliners and the Stressless® Wave Sofa is just one combination.

Stressless® Pacific Recliner shown in Rapport Rust/Brown stained. Stressless® Pacific Recliner shown in Paloma Khaki/Natural. Stressless® Pacific Recliner shown in Royalin Rust/Brown stained. Stressless® Wave sectional shown in Placidus Kitt. Stressless® Wave Recliner shown in Paloma Khaki/Natural. Our complete range of models is shown on pages 62-67.
Ever notice how your laptop has a tendency to follow you into your favorite recliner? Stressless® has met the needs of modern life with the Stressless® Personal Table, a soon-to-be-indispensable accessory in your home. It attaches to any Stressless® recliner* and provides a firm, stable working space right over your lap. That means no more thigh-burns from hot computers and a more ergonomic work position. And when you need a break, simply swing the table aside and fold it down. *Available only on models with wooden bases.

Stressless® Swing Table

Why name a table Swing? Because that's what you do with it when you're through using it. The Stressless® Swing Table is another accessory that optimizes the pleasure of the world's most comfortable recliner. This small, versatile table carries your remote, your cup, your book or whatever else you like to keep handy. It fits most recliners with our famous round base, except Stressless® Vision, Spirit, Dream, Jazz and Blues.
Stressless® Buckingham Sofas and Stressless® Kensington Recliner shown in Paloma Black/Brown stained. Our complete range of models is shown on pages 62-67.
Find your individual comfort zone

Someone asked: Why shouldn’t a sofa be just as comfortable as a recliner? We agree. That’s why we created the Stressless® line of sofas, where every seatback is individually adjustable. That means everyone seated can enjoy the original Stressless® comfort. Bring a friend or two, and try one at your nearest Stressless® Comfort Studio today.

Did you know that you move more than 300 times while watching a film? These constant changes in position are exactly what Stressless® is designed for.

With its rapid development in technology, the home theater is quickly becoming the family’s favorite room. Fortunately, innovation in furniture has finally caught up with all those impressive screens and speaker systems.

With a Stressless® Home Theater setup, you can forget about squally rows of hard seats and people with big hairdos who always wind up right in front of you. Stressless® provides you with individually adjustable seats, perfect neck and lumbar support, and a row of accessories like armrest tables and ottomans. Life in the movies has never felt or looked this good.

Home theater seating. Rated “c” for comfort.
Have you noticed how remotes, popcorn, sweets and other valuable items tend to clutter your home theater? With Stressless® Home Theater seating, that’s no longer a problem. Place them on, or even inside the Stressless® Double Ottoman or the Sector Table and armrest. You see: when we make furniture, it’s all thought through – all the way up to the closing credits.

Enjoyment is within reach
A Stressless® Home Theater setup will look great and heighten the movie experience. The patented Plus™ system lets the neck support move in parallel to the lumbar support. Add the height-adjustable headrest, and you’re good to go for hours in front of the screen. You can choose the ordinary armrest and enjoy the practicality of the Stressless® Easy armrest table and the Stressless® Corner table that give flexibility in furnishing your home theater. Or, you can choose the upholstered Sector table and Sector Arm; these can replace the armrest in fixed arrangements. In addition, you can always fit our smart and innovative ottomans into your home theater setup.

Neat and stylish at the same time

The Stressless® Sector (SC) and Stressless® Sector Arm (SCA) With tables is upholstered like the related sofa, which is arranged as an armrest, which is why Sector/Sector Arm should be treated as a fixed unit.

Stressless® Corner Table (CT) combines the need for a table with the need for individual positioning of the chairs and sofas. The Corner Table is free-standing, allowing you to re-organise the furniture when needed. Corner Table can be placed with any chair/sofa combination.

Ekornes® Corner Table (CT) combines the need for a table with the need for individual positioning of the chairs and sofas. The Corner Table is free-standing, allowing you to re-organise the furniture when needed. Corner Table can be placed with any chair/sofa combination.
Ekoners® offers four types of leathers — each in a full range of colors.

**Batick**

Batick is a corrected, pigment-improved and grain-enhanced upholstery leather. It is characterized by the tactile texture and hand-embossed grain pattern given by Batick. Most of the natural marks are removed. Also some of the Classico colors have a two-tone color effect to liven up the surface. A protection layer of lacquer simplifies cleaning. Batick is a wise choice if you want leather with excellent durability.

**Classico**

Classico is a slightly corrected leather with a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary if a side or parts of the furniture and also minor color nuances may differ. Classico has the properties of leather which is difficult to remove without risking destruction of the top layer. The surface is smooth, natural and comfortable. Paloma is a very popular choice.

**Paloma**

Paloma is a slightly corrected leather with leathery feel and a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary if a side or parts of the furniture and also minor color nuances may differ. Paloma has the properties of leather which is difficult to remove without risking destruction of the top layer. The surface is smooth, natural and comfortable. Paloma is a very popular choice.

**Royalin**

Royalin is the most exclusive of Ekornes’s leather types, but also the most vulnerable. Royalin is a type of leather with natural grain and structure, and may have minor color nuances and natural marks. This is characteristic for a natural leather such as Royalin. A light surface treatment provides a perfect leather, but Royalin absorbs dyes differently due to the structure, heat, sweat, spills, and perspiration. This requires greater care in use and more subsequent care than leather like Batick, which is corrected, pigment improved and grain embossed. Royalin will show its own personality, which you are aware of right away. Although leather furniture can stretch due to use, its appearance will change with the years.

The following apply to all types of leather used by Ekornes. Hide absorbs the dyes differently and therefore the leather may have color nuances. There are due to dissolution and different fiber structures, which affect the coloring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are deep dyed, but there could always be a deviation between the basic color of the hide (the color of the side that faces the upholstery side of the furniture), and the color of the grain side (the external side) i.e. the color of the outer layer. This is normal. It is possible to use the same basic color for leathers with different top dyers.

Some of the leather dyers have a two-tone color effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one color. This applies in particular to materials that are exposed to hard wear such as armrests, neck supports.

The top layer protects the leather and simplifies cleaning, but is nevertheless vulnerable to scratching and wear. If the top layer is destroyed, the leather may deteriorate, spill/damage/washes are normally irreparable and may result in the top color change character, cracking or peeling off.

Please note that denim and clothing and shoes may leave color on the leather which is difficult to remove without risking destruction of the top color of the leather. Light marks and other superficial deviations are admissible to such color contamination.

Dyes and dyeing methods may vary between the different leather qualities and leather qualities. Therefore the basic color and the color of the top layer which forms the wear layer and the final desired color of the finished product of a given leather quality may differ.

The top layer is made from leather and simplifies cleaning, but can be destroyed by incorrect handling.

Remember: leather has a relatively long life-time but can easily be destroyed by incorrect handling.

**Ekoners® upholstery leather.**

Ekornes is one of Europe’s largest consumers of leather. We purchase our leather from selected suppliers all over the world. Our inspectors take part in the leather selection, which is conducted in accordance with international norms for quality assurance. The experience we have gained in this work is for your benefit when you buy Stressless® or Ekornes® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations on durability, and for the use in conjunction with recognized international institutions in the line of business to ensure that our products are up to all norms in relation to health, safety and the environment.

The leather for our furniture is a natural material that comes from cattle hides. When the hide goes through a spraying process and further processing to achieve the correct durability properties, it is called leather. One characteristic of hide is that it is moulded by nature, and the natural finish has been maintained.

Cattle are born with a hair coat that is naturally replaced by a fine hair coat. This hair coat is removed by external influences like insect bites, rains, scours, stresses, etc. The hide is then subjected to treatment and cleaning to remove impurities. The hide is then dried, and the color is then chosen. From this point, the leather can be finished in a variety of ways. The leather can be finished in any way but there are some basic principles which remain constant. The top layer protects the leather and simplifies cleaning, but can still be destroyed by incorrect handling.

The following apply to all types of leather used by Ekornes. Hide absorbs the dyes differently and therefore the leather may have color nuances. There are due to dissolution and different fiber structures, which affect the coloring of the hide and how the hide absorbs the dyes during the tanning process.

About fabric

Please note that color changes will occur with time, as a result of use and the effect of light. Furniture should be protected from direct sunlight. To prolong the life and the appearance of the fabric, the furniture upholstery should be regularly vacuumed and professionally dry cleaned.

The Stressless® wooden colors

Made from laminated European beech, a light-colored wood with an attractive grain, exceptionally suitable for staining in various colors. Also, the strength of the wood makes it extremely durable.
