WHY CHOOSE US?

People should choose **Vismara Design theater chairs** because of different reasons. As history teaches, Italian design is well known all over the world thanks to the special **attention paid to details** and the **top quality materials used**.

For its high-end recliner chairs, Vismara Design offers maximum customization in colors, materials and equipments. Vismara selected a wide range of finest Italian leathers: full grain, Nabuck and pearly leathers. Is also proposed an interesting **Eco Nabuk**, very similar to natural one, but made in microfiber, easy to clean and water resistant. Vismara can even cover recliner chairs with client favourite fabrics or leathers, creating a unique and inimitable product. The top of the arm can be lacquered in many colors, and the front can be personalized with **precious decorative** inserts made of carbon or aluminum fiber, embroidered leathers, marbles or inlayed woods.

The framework is in plywood and the padding in polyurethane foam. Everything is studied into the deepest details to ensure the highest level of comfort and provide a flawless luxury product.

THE HALLMARKS OF OUR CHAIRS

The standard equipments provided for Vismara cinema seating are the cooling cup holder and the electrical reclining mechanism for backrest and footrest.

In addition, on the top of the arm, can be placed a USB charger socket and a steerable lamp. For real luxury lovers, has been also designed an exclusive big arm with a lift bar cabinet. If customers need some special features, Vismara can studied the perfect solution to satisfy every desire. This is a special service that big supplier companies usually can't provide.

Vismara can create a custom design cinema room choosing between straight or curved line layout, combining single seatings, love-seats and daybeds.

Vismara is able to design turn key projects studying the best solution in order to satisfy even the most demanding requests, from the furnishings to the sound, from the latest technology to the design of custom made boiserie.

ONASSIS

Special edition

ONASSIS

The combination of linear design and precious materials creates a unique product of peculiar and high-impact beauty. Onassis chair pays tribute to the multifaceted luxury of Art Déco style, which has recently come back into vogue. Onassis recliner is upholstered with a precious fine-grained leather, and for this special edition it is in a Coconut Milk colour giving a touch of nautical style that goes beautifully with luxury yachts interiors.

The armrest is refinished with a geometric pattern, quilted along its whole length, completing and enhancing the recliner.

THE CUSTOMIZATION

The great feature of Vismara Design Home Theater Chairs is the great possibility of customization.

The reclining can be enriched with some useful accessories, as the warming & cooling cup holder complete of wireless charger or the swivel touch lamp. Furthermore, clients can choose between a wide range of covering materials as precious fine grain leather, Nabuk leather or their fabric.

Finally, to create a personal and unique cinema, Vismara proposes different layouts: loveseat, chaise longue, curved row or straight row. All these features permit to completely customize the space.

MATERIALS

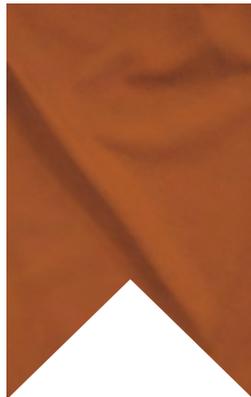

MATERIAL PROPOSAL

ECONABUK

The best-seller material for home cinema room. Thanks to its functional qualities and its fashionable look, Eco Nabuk microfiber is the best choice for home cinema chairs. It is really similar to Nabuk Leather, but more resistant, water-proof and with a really interesting value for money.

NABUK

Grain appearance: suede aspect, natural full grain leather.

FULL GRAIN LEATHER

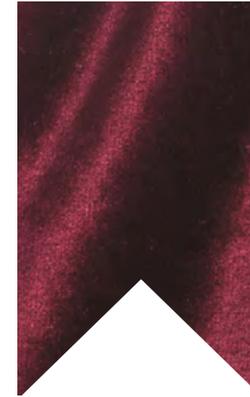

Grain appearance: natural smooth aspect, full grain leather.

TOP GRAIN LEATHER

Grain appearance: smooth aspect, fine grain leather.

BRILLIANT VELOUR

Appearance: silk aspect, synthetic velvet.

PEARL GRAIN LEATHER

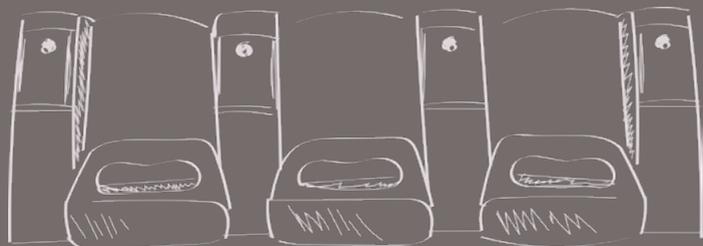

Appearance: shiny and pearly aspect, fine grain leather.

THE SURROUND

THE SURROUND

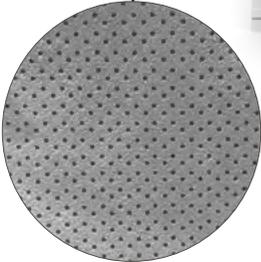

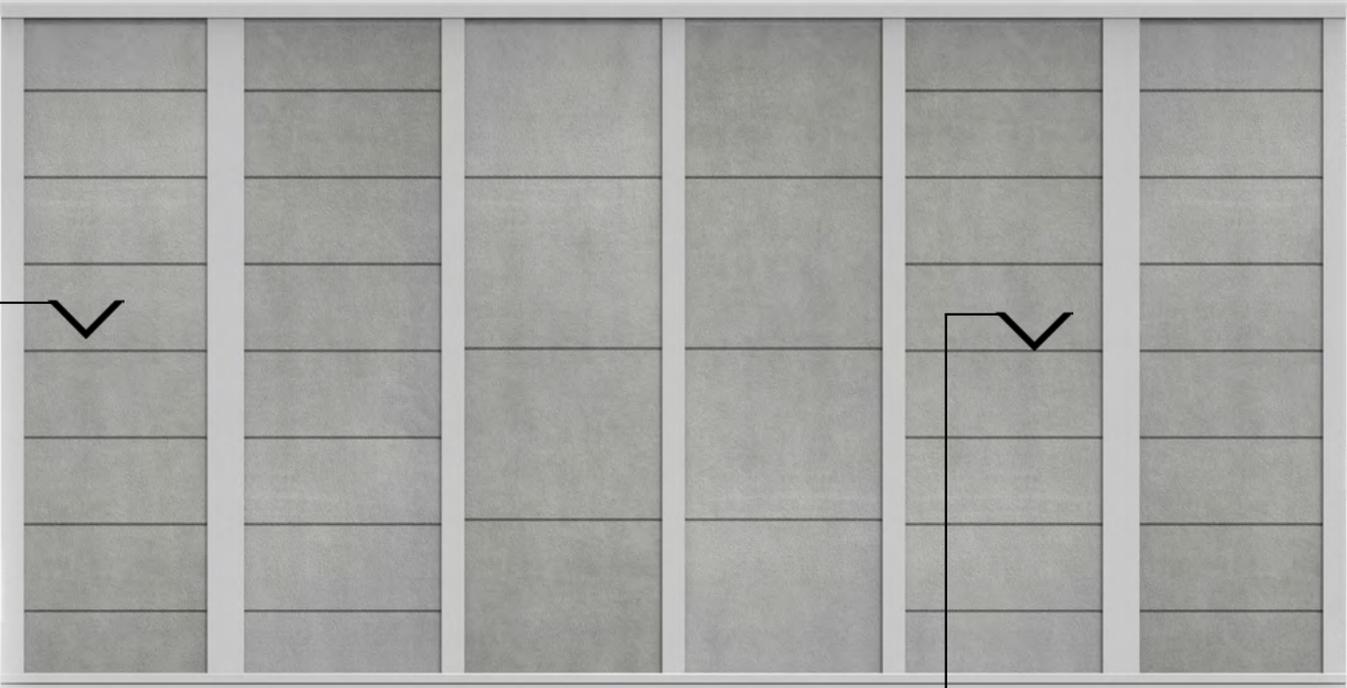

Thanks to **acoustic treated panels** you combine exclusive aesthetic with a perfect acoustic functionality. Acoustic treated panels are studied to break sound waves and avoid the echo effect and sound reverb.

Sound insulation panels permit to insulate the room. In this way the sound stays inside the Home Cinema Room and outside you don't hear the slightest noise.

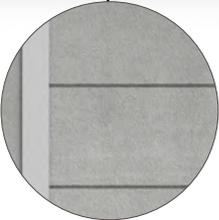

ACOUSTIC TREATED PANELS

Micro perforated econabuk where speakers are built-in.

Grooves for breaking sound waves.

WALL ACOUSTIC PANEL

Vismara takes care both the content of theater room and the box, that's to say, design and creation of wall panels. What Vismara panels have in common is the carefull attention paid to acustic performances: thanks to the use of specific material and the creation of dedicated grooves, cinema panels ensure an optimal acoustic result, breaking sounds waves and removing completely echo and distrurbing reverb.

FELLINI HIDDEN BAR

Fellini is a surprising home bar solution, perfect to maximise the space. Thanks to its clever door system, space can be used as well as possible. The pocket door sliding system is a peculiar one: on opening, the rotary doors slide outward and then glide backwards into a lateral pocket.

The design is studied to create a wow-effect once the doors are opening. The lower part of the bar is dedicated to the storage through different door compartments. The upper part is an element of great design: on sight shelves create a contemporary geometry, with a central mirrored niche and useful steel glass holders. Nice contrast is created between the use of lacquered wood and Eco Nabuk fabric, enhanced by lateral recessed led lights.

PORTAL

Vismara has studied a specific design to enrich cinema screen through big decorative panels, with precious frames and useful consoles which can host electronic equipment in an elegant and refined solution.

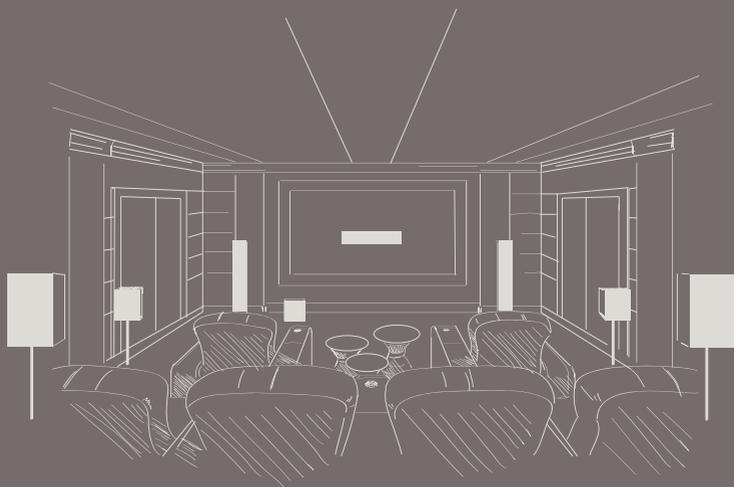

AUDIO & VIDEO

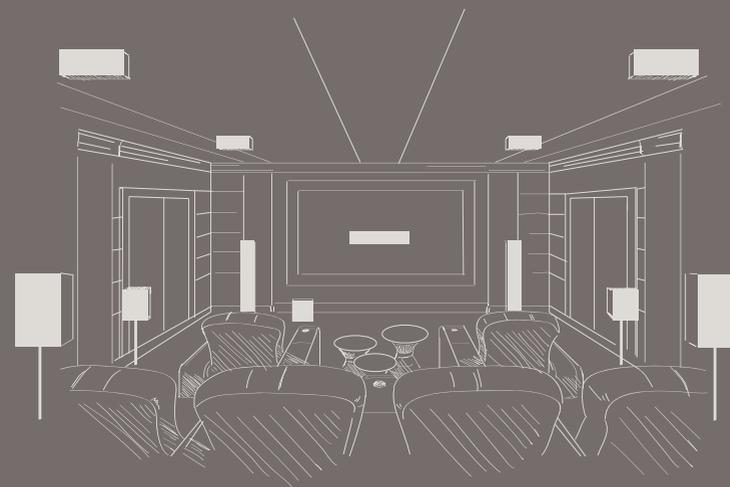

THE DOLBY ATMOS

Vismara shows a mix of commercial (and not) brands which realize high technologies products, a high level of sound performance and an excellent price-quality ratio. That mix permits to obtain the best from each company.

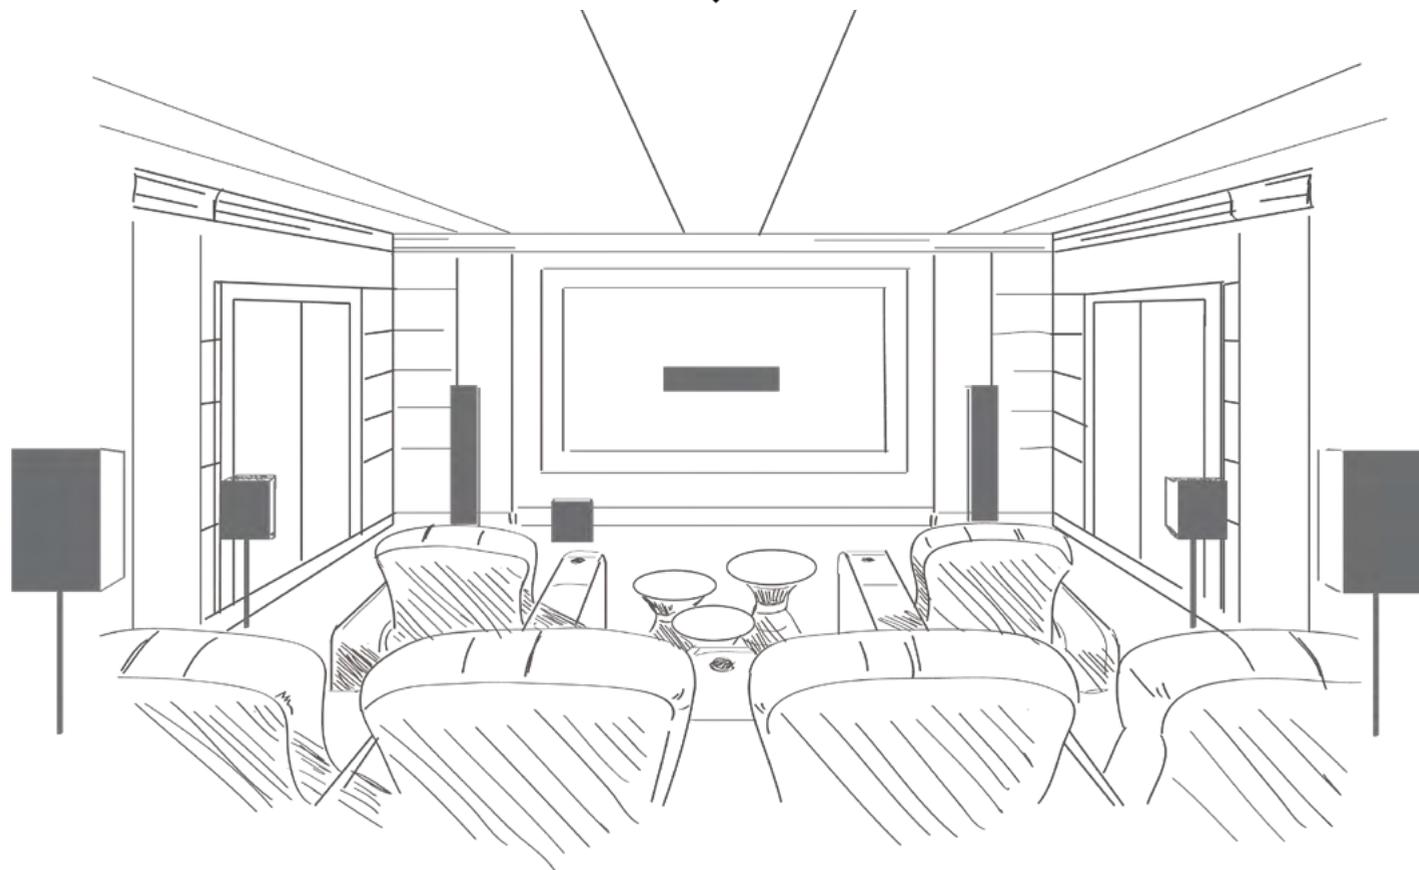

Traditional Dolby Surround

Dolby Atmos Surround

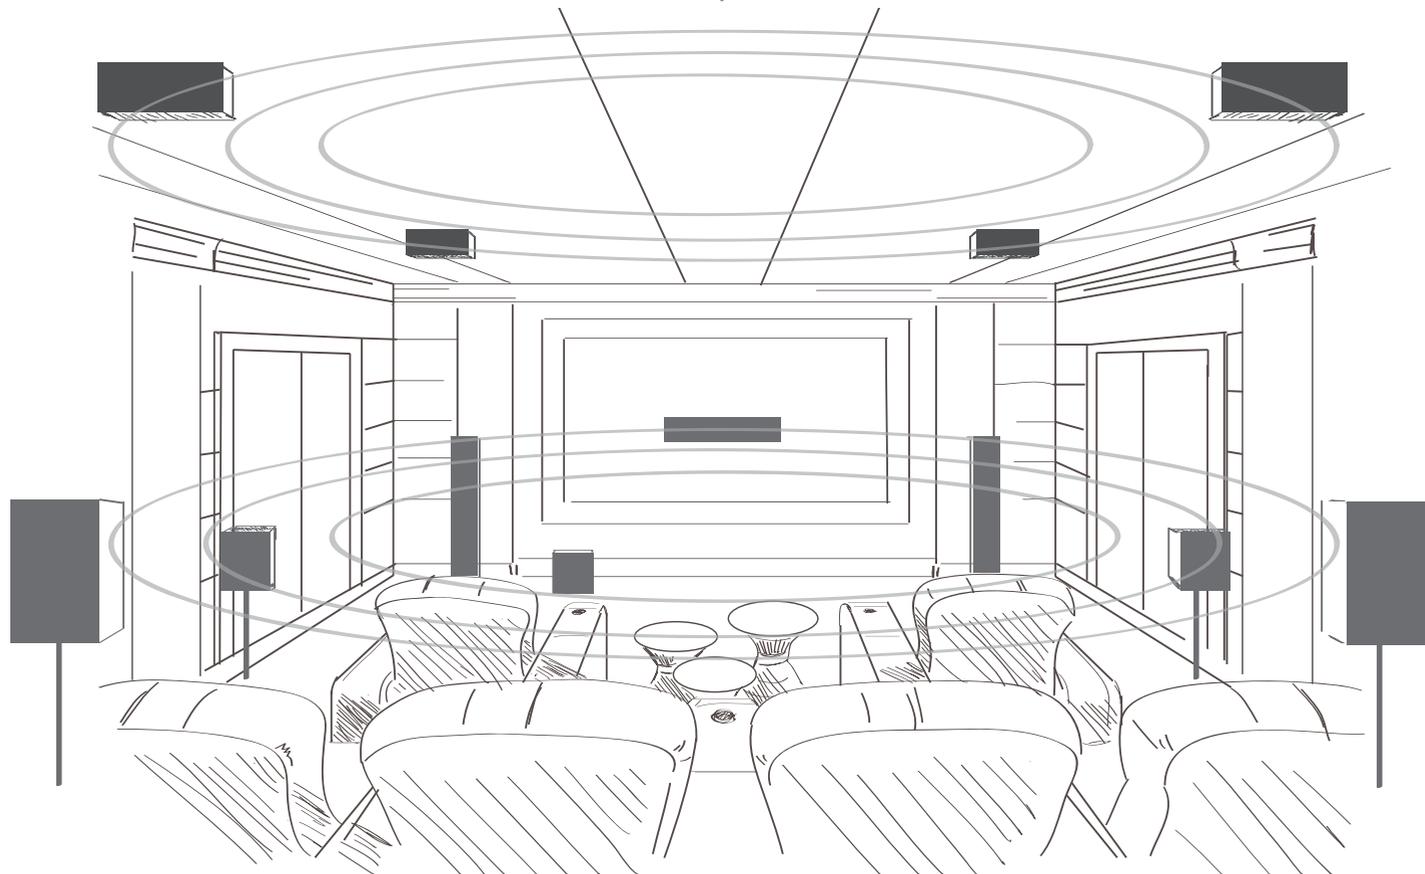

TRADITIONAL DOLBY SURROUND

This is the traditional audio track, called "bed" for the position of speakers

DOLBY ATMOS

The Dolby Atmos combines speakers on the ceiling in order to create a immersive cinema experience.

PARTNERS

DENON[®]**Panasonic****ELAN**[®] *g!*

Bowers & Wilkins

**DIGITAL
PROCESSING**

Denon powers the next generation of home theater with the world's first AV Processor, that supports the latest immersive audio formats, including Dolby Atmos.

**UHD
BLURAY PLAYER**

The Panasonic player is the pinnacle of performance in Rotel's superb multichannel power amplifier range and it supports the largest of home theater speaker systems.

AUTOMATION

The Elan g! automation features a faster CPU, more memory, extensive I/O and updated connectivity. It's designed to integrate medium to extra-large projects.

SPEAKERS

The Dali and B&W speakers are the natural choice when seeking a true Hi-Fi install audio experience. Whether it's hi-fi or custom installation, the audio performance of any speaker is best in class.

VIDEO

Vismara gives the possibility to choose between a traditional projection and a new generation video experience.
